BIRTHDAY ON THE AIR (BOTA) 2016 WRAP-UP IN THE CANARY ISLANDS, EA8BH. The following is a press release from Martti, OH2BH, dated February 27th: [edited] The OH2BH 70th Birthday Anniversary tour was to include ten (10) stops. They've taken Martti to the countries and islands that once affected him greatly along his road to becoming such a well-known figure in the DX and Contest communities. But he missed one of them. EA8BH, the Canary Islands will now be aired post festum in the ARRL DX Contest, March 45, 2017, this coming weekend.

EA8BH in the Canary Islands was Martti's second home for the entire 1990's with a state-of-the-art station, advanced automation, and beaming in multiple directions; tens of thousands of QSOs were made from that site as EA8EA and EA8BH in a shared investment with his lifelong friend, Ville, OH2MM/PY2ZEA.

The EA8BH CQWW CW/SSB world records made by Jeff, N5TJ, twenty years

ago are still the unbeatable targets of today's efforts. Many of Martti's friends have visited and operated EA8BH together with him or alone under his hosting. Those years were greatly supported by Manolo, EA8ZS, and this visit is to particularly acknowledge his support and friendship!

Now the Canary Islands branch of URE, the Spanish Amateur Radio Society, will host Martti and Leena (OH2BE) as they return to their former dream-land. You can complete your BOTA hunt with EA8BH. The tenth (10) birthday dinner in Las Palmas will nicely finish up this BOTA activity.

The list of 2016 BOTA events is as follows contacts with these ten (10) stops give you 5 points each, while working OH2BH/OH70BH during 2016 adds 25 points to your point account. There is a surprise prize for the winner and a signed certificate for high scorers.

1: CU2KG/CR2X	2: CT3BH
3: OH0B	4: OJ0B
5: ZA/OH2BH	6: Z68BH/Z60A
7: V26BH	8: J70BH
9: OF9X	10: EA8BH (2017)

Martti wants to thank those great friends who have been involved in getting multiple location BOTA conducted with style: CU2CE, CU2DX, CU2BV, CT3EE, CT3FU, CT3FJ, DJ2YA, DL5AXX, EA8RM, ES2RR, OZ1IKY, PB2T, J73GJ, J73LC, N3OC, K1LI, K1TO, N3OC, K5KG, N7NG, S56A, ZA1H, Z61DX, Z62FB, Z61VB, S56A, ZA1H, Z61DX, Z62FB, Z61VB, OH0XX, OH2MM, OH2PM, OH2TA, OH2UA, OH3WS, OH6KN, OH6KZP, OG2M, Twelve (12) OF9X elves, URE Canary Isl.; Finnish Light House Society (FLS) and others.

REALTIME BAND CONDITIONS WEB SITE :
The purpose of this experimental Web site is to provide 24-7-365 actual (REALTIME) band condition information to CW QRPp, QRPe and CW/SSB for Contesters interested in increasing their scores. It can also be of

benefit to other Radio Amateurs to determine band conditions for Nets and casual QSO's. This information is NOT based on any software predictions or any kind of satellite based readings. It is based on a new Ionospheric sounding method called "HF Ionospheric Interferometry" which operates very similarly to the PolSAR system used by NASA.

Also, check out the VOACAP predication Web page at:
